## CIRCULAR CRIMPED WIRE END BRUSHES

- Ideal for burr, weld scale, corrosion and paint removal
- Softer impact and more flexible than knotted brushes
- Efficient, light cleaning of small surfaces areas
- Great for cleaning pipes and grooves

## CIRCULAR KNOTTED WIRE END BRUSHES

- Ideal for burr, weld scale, corrosion and paint removal
- More aggressive brushing action than crimped brushes
- Reaches into corners and inside edges

FELTON BRUSHES

Model No.	Brush Dia."	Fill Dia."	Shank Size"	Max RPM	Price /Each
<b>STEEL</b>					
NU467	3 1/2	0.014	1/4	25 000	
<b>STAINLESS</b>					
NU468	3 1/2	0.014	1/4	25 000	

## CRIMPED WIRE CONCAVE END BRUSHES

- Crimped wire wheel has a concave face to reach into corners
- Acts as an off-hand sweeping tool
- For use on drill presses for internal or external cleaning

FELTON BRUSHES
